🌐 <https://www.linkedin.com/in/krishna-rajeev-a32767308> | 📍 Trivandrum , Kerala

PROFILE

Computer Science & Engineering undergraduate with a strong focus on Artificial Intelligence, Machine Learning, and data-driven systems. Proficient in Python and data analysis, with experience in model development, data preprocessing, and building intelligent solutions. Familiar with deploying ML models and integrating them into scalable applications. Strong foundation in algorithms and statistics, with an interest in solving real-world problems through data science and analytics.

EDUCATION

Mar Baselios College of Engineering and Technology

- Bachelor Of Technology - Computer Science & Engineering
2023 - 2027
CGPA - 8.89

Kendriya Vidyalaya Payyanur , Kannur

- 12 TH - 2022 | CBSE
- 10 TH - 2020 | CBSE

COURSES

- | | | |
|--------------------------|----------------------------|---------------------|
| • Data Structures, | • Artificial Intelligence, | • Business Trends, |
| • Operating Systems | • Machine Learning, | • Data Science |
| • Analysis Of Algorithms | • Object-Oriented | • Networking |
| • Databases | Programming | • Digital Marketing |

KEY SKILLS

Programming Languages:

- C, Java, Python, SQL

ML/AI :

- Machine Learning, Deep Learning, Scikit-learn, TensorFlow, Random Forest, OpenCV, Computer Vision, Pose Estimation, NumPy, Pandas

Web & Backend :

- Flask, Java Spring Boot, REST APIs, Thymeleaf, HTML, CSS

Soft Skills :

- Team Leadership, Event Coordination, Content Design, Agile Collaboration, Problem solving

Databases :

- MySQL, PostgreSQL, SQLite

Concepts :

- Feature Engineering, Data Structures & Algorithms, Object-Oriented Programming, Embedded Systems, Agile

Cloud & IoT :

- AWS IoT Core, DynamoDB, ESP32, Arduino, Raspberry Pi, Jetson Nano (Basic)

Tools & IDEs :

- IntelliJ IDEA, MySQL Workbench, Figma, Git/GitHub, VS Code

PROFESSIONAL EXPERIENCE

SAASVAAP INC

12/2024 - 01/2025

Tech Stack : HTML, CSS, Javascript, Java Springboot, MYSQL database

- Developed Java-based web applications using Spring Boot, JDBC, and MySQL
- Built a Student Management System with secure login, registration, and full CRUD operations
- Designed and implemented RESTful APIs for backend–frontend communication
- Integrated frontend using Thymeleaf along with HTML, CSS, and JavaScript
- Created and managed database-driven applications using MySQL and JDBC
- Gained hands-on experience in full-stack development and application architecture

ORGANIZATIONS

Emerging Professional Of Tribe, Catalyst IEDC, Mar Baselios College of Engineering and Technology

12/2024 - 01/2025

Collaborated in content development, event planning, and visual design, contributing to the successful execution of innovation and entrepreneurship programs.

PROJECTS

Automated Railway Gate System (IoT + Cloud)

Tools & Tech Stack : ESP32, Vibration and PR sensors, Servo Motor Arduino, AWS IoT Core, DynamoDB, SNS

- Designed an automated railway gate control system using sensor-based train detection
- Integrated vibration and PIR sensors for real-time track monitoring and safety assurance
- Implemented automated gate operation using servo motors and alert systems
- Enabled cloud-based monitoring and notifications using AWS services

BOOKFLICK – Peer Book Lending Platform

Tools & Tech Stack : Java, Spring Boot, MySQL, JDBC, HTML, CSS, JavaScript

- Developed a full-stack web application for managing book lending operations
- Designed relational database schema for efficient data storage and retrieval
- Built RESTful APIs and integrated frontend with backend services
- Implemented authentication and core functionalities for user interaction

WILD AI – AI-Based Wildlife Surveillance And Human Intrusion Monitoring System (Developing Project)

- Developing an AI-based surveillance system using YOLOv8 and custom-trained models for wildlife and human intrusion detection
- Gathered system requirements through discussions with the Kerala Forest Department, ensuring alignment with real-world needs
- Implementing real-time detection and SMS-based alert system for risk-level notifications
- Designing a web-based dashboard to monitor wildlife activity, alerts, and incident data

LANGUAGES

- English
- Hindi
